### **COSA SONO** gli hashtag di Instagram?

Gli hashtag sono delle etichette (#) che vengono utilizzate per aggregare dei contenuti per argomento e rendere la loro ricerca più semplice.

**UTILITÀ:** Nell'ambiente di Instagram, con gli hashtag giusti riuscirai ad ottenere più like e aumentare i follower del tuo profilo con maggior semplicità perché molti utenti cercano e fruiscono i post che gli interessano navigando attraverso gli hashtag tematici.

### **STRATEGIA & QUANTITÀ??**

- Più meno a maggio 2019 Instagram ha cambiato nuovamente le carte in tavola grazie a un ennesimo nuovo algoritmo e per contrastarlo abbiamo bisogno di tecniche ben precise.
- Utilizza da 1 a un massimo di 10 hashtag a post;
- Non fermarti ai soliti hashtag, sperimentane sempre di nuovi;
- Utilizza hashtag dove sai di poter arrivare nei popular.
- Scegli le tipologie che più si avvicinano al tuo account o che preferisci
- Anche se trovi più di dieci hashtag per categoria ti consiglio di non utilizzarne mai più di 10.
